

## DisplayPort™ to HDTV Cable

- 1) Connect the DisplayPort end to the DisplayPort port of the COMPUTER
- 2) Connect the HDTV cable end to a DISPLAY with HDMI input
- 3) Select the HDMI input setting from the menu of the connected display monitor
- 4) Select a compatible video resolution and refresh rate from the computer
- 5) Adjust the computer AUDIO output settings

### Connection Notes

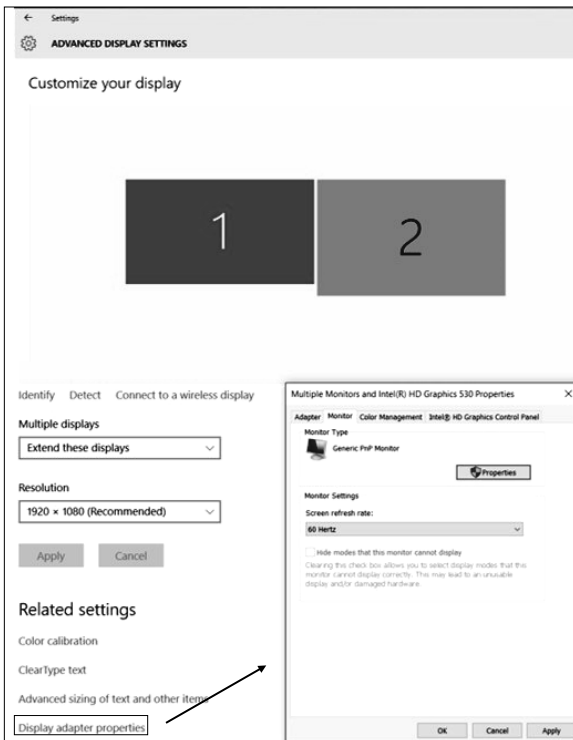

- DEPRESS THE LATCH on the DisplayPort connector to avoid damage when unplugging
- Dual Mode DP++ support required from the graphics card or an active adapter is required
- DUAL MONITOR SETUP to connect up to 2 monitors (1 cable per monitor) with AMD Eyefinity
- VIDEO RESOLUTION up to 1920x1200 @ 60Hz including HD 1080p
- AUDIO SUPPORT for LCPM, DTS, and Digital Dolby with compatible equipment
- NOT BI-DIRECTIONAL cable converts the signal only from DisplayPort to HDMI
- NOT USB COMPATIBLE with a DisplayPort plug that does not fit the USB port of a computer
- HDMI to DVI adapter compatible with a separate adapter for video transmission only

## VIDEO SETTINGS IN WINDOWS

- 1) Connect the DisplayPort to HDTV cable to both ends
- 2) Select the HDMI input from the connected display menu
- 3) Search for **Display Settings** in Windows
- 4) Select to **Duplicate** or **Extend** the display
- 5) Click **Apply** to save the settings

**Note:** Select **Display Adapter Properties** to adjust the refresh rate.

## AUDIO SETTINGS IN WINDOWS

- 1) Search for **Sound** in Windows
- 2) Open the **Playback Tab** in **Sound**
- 3) Select the display with HDMI audio
- 4) Set the **Configuration** and **Properties**
- 5) Click **Set Default**
- 6) Click **Apply** and **OK** to save the settings
- 7) Adjust the volume at the connected display

- ◆ Changing the audio device may require you to **RESTART** your PC
- ◆ Check that your computer volume is not **MUTED** or extremely low

## Troubleshooting Tips

### CABLING

- Check that all cable connections are secure
- Inspect the cable to check that no pins are damaged or bent
- Test the cable by connecting it directly with other equipment, if possible

### COMPUTER SOURCE

- Check for updated OS and video graphics card drivers for DisplayPort
- Review the troubleshooting steps from your computer manufacturer
- Try different video resolution and refresh settings supported by the connected display
- Verify that the audio from your computer is not muted or extremely low
- Reboot the computer after making multiple changes

### CONNECTED DISPLAY

- Select the correct input from the connected display menu
- Select a video resolution and aspect ratio setting supported by your computer
- Adjust the audio level with your remote or from the display menu
- Check for any firmware updates from the display manufacturer

**Warranty Information** This product is backed by a limited one-year warranty. In addition, Cable Matters warrants its products against defects in materials and workmanship for the periods noted, following the initial date of purchase. During this period, the products may be returned for repair, or replaced with equivalent products at our discretion. The warranty covers parts and labor costs only. Cable Matters does not warrant its products from defects or damages arising from misuse, abuse, alteration, or normal wear and tear.

**Limitation of Liability** In no event shall Cable Matters Inc. (including their officers, directors, employees or agents) be liable for any damages (whether direct or indirect, special, punitive, incidental, consequential, or otherwise), loss of profits, loss of data, loss of business, or any pecuniary loss, arising out of, or related to the use of this product exceeding the actual price paid for the product. Some states do not allow the exclusion or limitation of incidental or consequential damages. If such laws apply, the limitations or exclusions contained in this statement may not apply to you.
