

USB 2.0 Micro-B Ethernet Adapter for Video Streaming Devices

USB 2.0 Micro-B Ethernet Adapter for Video Streaming Devices

Installation Instructions

- 1) Plug the micro-USB cable into the video streamer
- 2) Connect your Ethernet patch cable to the adapter and your internet router
- 3) Plug the USB-A cable to a USB wall charger
- 4) Connect the video streamer to your TV
- 5) Select a 'wired connection' from the TV menu (if needed)

Troubleshooting Tips

- Video streamer must be USB-powered (not AC powered)
- Check that the LED is lit on the adapter
- Do not use the USB power port on your TV
- Test all your connected cables with another device
- Try a different HDMI port on the TV
- Gen 1 Fire TV stick and smartphones are not supported

Warranty Information

This product is backed by a limited one-year warranty. Cable Matters warrants its products against defects in materials and workmanship for the periods noted, following the initial date of purchase. During this period, the products may be returned for repair or replaced with equivalent products at our discretion. The warranty covers parts and labor costs only. Cable Matters does not warrant its products from defects or damages arising from misuse, abuse, alteration, or normal wear and tear.

Limitation of Liability

In no event shall Cable Matters Inc. (including their officers, directors, employees or agents) be liable for any damages (whether direct or indirect, special, punitive, incidental, consequential, or otherwise), loss of profits, loss of business, or any pecuniary loss, arising out of, or related to the use of this product exceeding the actual price paid for the product. Some states do not allow the exclusion or limitation of incidental or consequential damages. If such laws apply, the limitations or exclusions contained in this statement may not apply to you.

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This device must not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.
