

2-PIECE SET BATTERY CLAMPS

INSTALLATION INSTRUCTIONS

OVERVIEW

The Cable Matters Battery Clamp with Heavy-duty construction is designed to make a set of battery jumper cables or to replace the existing clamps on the battery jumper cables or commercial battery charger. It's easy to use and suitable for most vehicle battery jumper cables or commercial battery charger.

! CAUTION

- Electrical installation can be hazardous! Misuse can result in fire or death by electrical shock.
- Installation by a qualified electrician is recommended.
- Follow instructions in the owner's manual for your vehicle when jump-starting your vehicle.

WIRING INSTRUCTIONS - READ BEFORE INSTALLING

1) Loosen and remove screw on the side of the clamp with a Phillips head screwdriver (not included).

2) Remove brass jaw from the clamp. (see *Figure 1*)

3) Strip 0.39" to 0.59" (10-15 mm) of insulation from one end of the cable with a wire stripper (not included).

4) Slide cable with the newly-exposed insulated wire end into the clamp through the handle grips. (see *Figure 2*)

Note: Identify the positive and the negative clamps: Use black clamp for the negative booster cable. Use red clamp for the positive cable.

5) Insert the insulated wire end into the brass jaw and fasten tightly with a vise-grip plier (not included). (see *Figure 3*)

6) Place the brass jaw back into the clamp. Fasten screw on the side of the clamp.

7) The installation is finished. (see *Figure 4*)
